I understand if renting a helmet, this cannot guard against all foreseeable impact & head injury or from neck, spine or other injuries that may result from skiing, snowboarding or tubing use. I understand that at speeds of greater than 13 miles per hour, my helmet may not provide adequate protection against a serious head injury if my head comes into direct contact with a fixed object. I have confirmed the fit & sizing have been done on my recommendations. My fit is snug but comfortable & I understand that the chin strap must be buckled at all times while I am engaged in snow sports activity. I understand this shop offers no warranties, expressed or implied & that this equipment is as is. This agreement is attached to the regular rental agreement that I have also signed.
